Report on review of condensed interim financial information

To the shareholders of Dar Al-Etiman Al Saudi Company:
(A Saudi Closed Joint Stock Company)

Introduction

We have reviewed the accompanying condensed interim statement of financial position of Dar Al-Etiman Al Saudi Company as of June 30, 2020 and the related condensed interim statement of comprehensive income for the three-month and six-month periods then ended, and the condensed interim statements of changes in shareholders' equity and cash flows for the six-month period then ended and notes, comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

DAR AL-ETIMAN AL SAUDI COMPANY

(A Saudi Closed Joint Stock Company)

Notes to the condensed interim financial information for the three-month and six-month periods ended June 30, 2020

(All amounts in Saudi Riyals unless otherwise stated)

1. General information

Dar Al Etiman Al Saudi Company (the "Company") is principally engaged in providing lease financing for motor vehicles within the Kingdom of Saudi Arabia. The Company's head office is located at Prince Sultan Street, P.O. Box 55274, Jeddah 21534, Saudi Arabia.

The Company is registered as a Saudi Closed Joint Stock Company pursuant to Ministerial Resolution No. 486/Q dated Jumad-ul-Thani 11, 1436 (corresponding to March 31, 2015). Prior to its conversion to a Saudi closed joint stock company, the Company was operating as a Limited Liability Company registered in the Kingdom of Saudi Arabia under Commercial Registration number 4030165101 issued in Jeddah on Dhul-Qada 5, 1427H (corresponding to December 5, 2006).

The Company has obtained license No. 33/AM/201605 from Saudi Arabian Monetary Authority (SAMA) to conduct finance lease activities on Rajab 16, 1436 (corresponding to May 5, 2015).

The accompanying condensed interim financial information include the accounts of the Company's head office and all its branches.

2. Basis of preparation

- 2.1 The condensed interim financial information of the Company as at and for the three-month and six-month periods ended June 30, 2020 has been prepared in accordance with International Accounting Standard "Interim Financial Reporting"- ("IAS 34") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organisation for Certified Public Accountants ("SOCPA").
- 2.2 The condensed interim financial information do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2019.
- 2.3 These condensed interim financial information are expressed in Saudi Riyals, which is the Company's functional and reporting currency.
- 2.4 These condensed interim financial information have been reviewed, not audited.
- 2.5 Certain new accounting standards and interpretations have been published that are not mandatory for the June 30, 2020 reporting period and have not been early adopted by the Company. These standards are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

DAR AL-ETIMAN AL SAUDI COMPANY

(A Saudi Closed Joint Stock Company)

Notes to the condensed interim financial information for the three-month and six-month periods ended June 30, 2020

(All amounts in Saudi Riyals unless otherwise stated)

2. Basis of preparation (continued)

2.6 Use of judgments and estimates

The preparation of these condensed interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Such judgements, estimates, and assumptions are continually evaluated and are based on historical experience and other factors, including obtaining professional advices and expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

In addition, results for three-month and six-month periods ended June 30, 2020 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2020.

In preparing these condensed interim financial information, the significant judgments made by management in applying the accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended December 31, 2019 except for the estimates described below:

Measurement of the expected credit loss allowance

In the preparation of the condensed interim financial information management has made certain additional assumptions in the measurement of Expected Credit Loss (ECL). Explanation of such inputs, assumptions and estimation techniques used in measuring ECL are further detailed in Note 14 of these condensed interim financial information. However, in view of the current uncertainty as explained in Note 14, any future change in the assumptions and key estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods. As the situation is rapidly evolving with future uncertainties, management will continue to assess the impact based on prospective developments.

3. Significant accounting policies

The accounting policies used in the preparation of the condensed interim financial information are consistent with those followed in the preparation of the Company's financial statements for the year ended December 31, 2019 except for the following accounting policy adopted during the three-month and six-month periods ended June 30, 2020.

Accounting policy related to government grants

The Company recognises a government grant related to income, if there is a reasonable assurance that it will be received, and the Company will comply with the conditions associated with the grant. The benefit of a government deposit at a below-market rate of interest is treated as a government grant related to income. The below-market rate deposit is recognised and measured in accordance with IFRS 9 'Financial Instruments'. The benefit of the below-market rate of interest is measured as the difference between the initial fair value of the deposit determined in accordance with IFRS 9 and the proceeds received. The benefit is accounted for in accordance with IAS 20. Government grant is recognised in condensed interim statement of comprehensive income on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants is intended to compensate.

Net servicing liability under agency agreements

Under the securitization and agency agreements, the Company has been appointed by the financial institutions to service the purchased receivables. Where the Company is appointed to service the derecognized financial assets for a fee, the Company initially recognizes either a net servicing asset or a net servicing liability for that servicing contract at its fair value.

The fair value of net servicing asset/ liability is determined based on the present value of estimated future cash flows related to contractually specified servicing fees less servicing costs. The primary determinants of the fair value of net servicing asset/ liability are discount rates, estimates of servicing costs and the fixed servicing fees. The management assesses the cost of servicing including salaries and other direct costs. The annual change in the servicing cost represents the increment to the servicing cost as a result of inflation.

Variations in one or a combination of these assumptions could materially affect the estimated values of net servicing liability.

14. Impact of COVID-19 on Expected Credit Losses (“ECL”) and SAMA Programs

On March 11, 2020, the World Health Organisation (“WHO”) declared the Coronavirus (“COVID-19”) outbreak as a pandemic in recognition of its rapid spread across the globe. This outbreak has also affected the GCC region including the Kingdom of Saudi Arabia. Governments all over the world took steps to contain the spread of the virus. Saudi Arabia in particular has implemented closure of borders, released social distancing guidelines and enforced country wide lockdowns and curfews.

Oil prices have also witnessed significant volatility during the current period, owing not just to demand issues arising from COVID-19 as the world economies go into lockdown, but also supply issues driven by volume which had predated the pandemic. The oil prices have shown some recovery in late Q2 2020 as oil producing countries cut back production coupled with increasing of demand as countries emerged from lockdowns.

The prevailing economic conditions post lock down, require the Company to revise certain inputs and assumptions used for the determination of expected credit losses (“ECL”). These primarily revolve around either adjusting macroeconomic factors used by the company in the estimation of expected credit losses or revisions to the scenario probabilities currently being used by the Company in ECL estimation. In Q1 2020, the Company made certain adjustments to the macroeconomic factors and scenario weightings. During Q2 2020 and as more reliable data became available, the management has further made adjustments to the macroeconomic factors used by the Company in the estimation of expected credit losses or revisions to the scenario probabilities. For the six-month period ended June 30, 2020, the macroeconomic factors update resulted in an additional ECL of Saudi Riyals 0.25 million.

The Company’s ECL model continues to be sensitive to macroeconomic variables and scenario weightings. Applying a five percent increase to the downside ECL scenario, could result in an approximate additional ECL charge of Saudi Riyals 0.39 million as at June 30, 2020. As with any forecasts, the projections and likelihoods of occurrence are underpinned by significant judgement and uncertainty and therefore, the actual outcomes may be different to those projected. The impact of such uncertain economic environment is judgmental and the Company will continue to reassess its position and the related impact on a regular basis.

It continues to be challenging to reliably ascertain the specific effects the pandemic and the government and SAMA support measures, such as the repayment holidays and other mitigating packages, will have. The Company has therefore concluded that it was too early for any potential credit impairment to be reflected through application of the staging criteria and focused on the economic model underpinning PD and LGD determinations. The Company will continue to individually assess significant corporate exposures as more reliable data becomes available and accordingly determine if any additional ECL amounts need to be recognized.

SAMA programs and initiatives launched

In response to COVID-19, SAMA launched the Private Sector Financing Support Program (“PSFSP”) in March 2020 to provide the necessary support to the Micro Small and Medium Enterprises (“MSME”) as per the definition issued by SAMA via Circular No. 381000064902 dated 16 Jumada II 1438H. The PSFSP mainly encompasses the following programs:

- Deferred payments program;
- Funding for lending program;
- Loan guarantee program; and
- Point of sale (“POS”) and e-commerce service fee support program.

As part of the deferred payments program, the Company is required to defer payments for six months on lending facilities to those companies that qualify as MSMEs. The payment reliefs are considered as short-term liquidity support to address the borrower’s potential cash flow issues. The Company has effected the payment reliefs by extending the tenure of the applicable loans granted with no additional costs to be borne by the customer. The accounting impact of these changes in terms of the credit facilities has been assessed and are treated as per the requirements of IFRS 9 as modification in terms of arrangement. This has resulted in the Company recognising a day 1 modification loss of Saudi Riyals 4,950 as at March 31, 2020 and this has been presented as part of finance income / (charges), net. In the absence of other factors, participation in this deferment is not considered a significant increase in credit risk.

14. Impact of COVID-19 on Expected Credit Losses (“ECL”) and SAMA Programs
(continued)

In order to compensate all the related cost that the Company is expected to incur under the SAMA program, the Company has received Saudi Riyals 1.05 million of profit free deposit from SAMA in April 2020 (note 9). The benefits of the subsidised funding rate and deferment of monthly instalments have been accounted for on a systematic basis, in accordance with government grant accounting requirements. This resulted in recognition of grant income of Saudi Riyals 4,950 recognised in the condensed interim statement of comprehensive income for the three-month and six-month periods ended June 30, 2020 within other income and the balancing amount has been recognized as a financial liability within, accrued and other liabilities. The management has exercised certain judgements in the recognition and measurement of this grant income.

15. Financial risk management

The Company’s activities are exposed to a variety of financial risks which mainly include market risk (including foreign exchange risk, interest rate risk and price risk) credit risk and liquidity risk. The condensed interim financial information does not include all financial risk management information and disclosures required in the annual financial statements; and therefore, should be read in conjunction with the Company’s annual financial statements as at December 31, 2019. There have been following changes in the risk management policies since the year end.

Credit risk management

The Company has strengthened its credit risk management policies to address the fast changing and evolving risks posed by the current circumstances. These include review of concentrations at granular economic sector, region, counterparty level including consideration of impacts of government and SAMA support, collateral protection and timely review. In respect of retail portfolio these include close monitoring of employer concentrations, the trends in unemployment and the projected levels, collateral, delinquencies and timing of government support. All such measures are discussed and approved by the Credit and Risk Committee.

Liquidity risk management

The Company is aware of the need to keep a close focus on liquidity management during this period and has enhanced its daily monitoring of liquidity as well as increasing the number of management meetings. The Company acknowledges the timely action of SAMA and other government bodies in providing support and assurance to the financial markets.

From the perspective of going concern, no changes were made in the objectives, policies and processes for managing capital and management monitors the maturity profile to ensure adequate liquidity is maintained. From a liquidity perspective the Company has cash and cash equivalents amounting to Saudi Riyals 42 million as at June 30, 2020, and therefore the Company is not significantly exposed to liquidity risk.
